Section 1 text...

Illustration 1: Sketch of New Courthouse

More text here for section 1...

Property	Element	Description
Headers	Layout	Header rows/cells should be clearly marked and distinguishable in both presentation and markup
	Span	Cells that span more than one row or column (for example, the “Headers” cell in the first column) should use rowspan or colspan attributes.
	Repeating	Header rows should be repeated at the top of each page
	Complex Tables	Complex table structures may require header rows/columns/cells to be marked using a PDF editor; Microsoft Word does not support this complexity and only marks the first row as a header.
Caption	Caption	Table captions should be added
Summary	Summary / Description	An alternative text description can be added using the Table Properties “Alt Text” tab.
